## CAREER OBJECTIVE

Passionate and curious Artificial Intelligence and Data Science student with a strong interest in Full Stack Web Development and problem-solving. Skilled in building real-world projects using modern web technologies and eager to learn, adapt, and contribute to innovative software solutions in a dynamic tech environment.

## TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, SQL
- Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, REST APIs
- Database: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, VS Code

## SOFT SKILLS

Problem Solving | Team Collaboration | Adaptability | Fast Learner | Time Management

## PROJECTS

- **DailyWage**  
Tech Stack: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, JavaScript  
Built a workforce management web application to manage workers, record daily attendance, calculate wages, and track payments efficiently.
- **Food Calorie Estimator**  
Tech Stack: Python, TensorFlow, OpenCV, NumPy, Streamlit  
Developed an AI-powered food calorie estimation system using image recognition techniques to identify food items from uploaded images and estimate calorie content.
- **Campus Connect**  
Tech Stack: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, JavaScript  
Developed a web-based mentorship platform to connect juniors and seniors, enabling guidance, communication, and meaningful interactions.

## EDUCATION

- **B.Tech in Artificial Intelligence and Data Science**  
KGISL Institute of Technology, Coimbatore  
2023 – 2027 (Pursuing) | CGPA: 8.04/10
- **Higher Secondary Certificate**  
Kurinji School, Namakkal  
Completed in 2023

## INTERNSHIP

### Data Science Intern – Ether Services

June 2025 – July 2025

- Worked on an AI-powered Food Calorie Estimation system using TensorFlow, OpenCV, NumPy, and Streamlit.
- Gained hands-on experience in Deep Learning, Computer Vision, Image Processing, and AI model deployment.
- Learned model training, image preprocessing, and real-time prediction using Python-based frameworks.
